US-PAT-NO: **4144416**

DOCUMENT-IDENTIFIER: US 4144416 A

TITLE: Unitary tuned port and loudspeaker frame

----- KWIC -----

Referring briefly to FIGS. 2 and 3 wherein the details of the basket 12 are $\,$

separately illustrated, it is seen that the basket 12 is generally oval in

shape. The basket 12 is preferably a cast or stamped one-piece construction of

steel or aluminum, but alternatively may be an injection molded **plastic** or

other suitable material which provides a rigid unitary construction.

After the duct 256 is secured in place in the basket 212, they are preferably permanently joined together in a suitable manner to resist the
